

Principal's Message

Welcome to the District Institute of Education and Training (DIET), a premier academic institution dedicated to strengthening the quality of school education through teacher education, capacity building, research, innovation, and academic support.

DIET serves as the nodal institution at the district level for implementing educational policies and programmes of the Government. Our primary mission is to prepare competent, committed, and reflective teachers who can meet the diverse learning needs of children and contribute effectively to nation-building.

The institute plays a vital role in the professional development of both pre-service and in-service teachers. Through the Diploma in Elementary Education (D.El.Ed.) programme, we prepare future elementary teachers with strong pedagogical knowledge, practical teaching skills, and a child-centred approach. Simultaneously, we provide continuous professional support and training to in-service teachers, enabling them to adopt innovative teaching practices, integrate technology in classrooms, and align their work with contemporary educational reforms.

DIET also functions as a resource Centre for academic planning, educational research, curriculum enrichment, learning assessment, and implementation of key national and state educational initiatives, including the National Education Policy (NEP 2020), Foundational Literacy and Numeracy (FLN), Inclusive Education, and other quality improvement programmes.

We believe that quality education begins with quality teachers. Therefore, our efforts are directed towards creating an environment of learning, collaboration, innovation, and professional excellence. Through sustained academic support and community engagement, we strive to ensure that every child receives equitable, inclusive, and meaningful educational opportunities.

I extend my best wishes to all teacher educators, trainees, teachers, students, and stakeholders associated with our institute. Together, let us work towards building an enlightened, empowered, and educated society.

(Principal)
